SAINT PETER'S HIGH SCHOOL FOR BOYS

200 Clinton Avenue, Staten Island, New York

Supervised By The **Brothers Of Christian Schools**

THE CLASS OF '74

Introduction:

As the 73–74 school year races to an end, there is much we St. Peters' students can look back on and be proud of. St. Peters' students have succeeded, if not dominated, in many areas.

In sports, as if it were surprising, the basketball team continued to display its championship ability on and off the island. And certainly, praise cannot be denied the track, baseball, tennis and rest of our teams for adding something extra to the schools' name. In the academic field, there has been the start of a few new courses. For example; Man's search for Meaning, taught by Brother Jerome, took an approach to learning about people and life. To some extent, that course fairly well describes the whole atmosphere of St. Peter's.

Thanks to our administration, we are continuing to operate under the modular scheduling system, established several years ago, in order that the student be given more free time. This desire on the part of the Administration showed that they had sincere faith and respect for the student body. While other schools will not consider giving students any extra time outside of class, our administration by using this method of arranging time is trying to give the students a better, all-around education. There are few people today who realize that learning can go on outside the classroom; we are indeed fortunate to have some of them here. The ideas and efforts of our faculty have proven, year to year, that we may sacrifice some factual knowledge in order that we may strive to know our environment better and the people in it. If we have any hopes of achieving success, whatever we assume that it to be, we must know how to deal and get along with the people of our society.

Any hopes we have for any approach to education will be a gradual process, the effects of which will not suddenly burst before the schools' intelligence. It will be signified in small actions by the students, perhaps showing what they have learned in ways other than marks. For the general approach to learning at St. Peters' is a balanced one, developing the student intellectually as well as preparing him for life in the academic field, and preparing him for life simultaneously. The main point of this essay then, is to tell you that a student who drops from a 83% to a 78% need not be condemned, if, in dropping to that mark, he has learned more of people and of life.

If St. Peter's achieves a reputation of producing true human beings, while continuing to regard the basic school subjects, then I personally believe that our attempts will have been a success.

The '73–'74 school year, therefore, may not show its results immediately, and many people may never notice what students from St. Peter's learn. But we will know that the true importance of learning lies within ourselves, and not in what we proclaim to others that we know.

THE WINDHOVER
To Christ Our Lord

I caught this morning morning's minion, king-
  dom of daylight's dauphin, dapple-dawn-drawn Falcon, in his riding
  Of the rolling level underneath him steady air, and striding
High there, how he rung upon the rein of a wimpling wing
In his ecstasy! then off, off forth on swing,
  As a skate's heel sweeps smooth on a bow-bend: the hurl and gliding
  Rebuffed the big wind. My heart in hiding
Stirred for a bird, — the achieve of, the mastery of the thing!

Brute beauty and valor and act, oh, air, pride, plume, here
  Buckle! and the fire that breaks from thee then, a billion
Times told lovelier, more dangerous, O my chevalier!

  No wonder of it: sheer plod makes plough down sillion
Shine, and blue-bleak embers, ah my dear,
  Fall, gall themselves, and gash gold-vermillion.

PRIESTS OF ST. PETER'S PARISH

Rev. JOHN REILLY
Pastor of St. Peter's Parish

Father John Reilly attended Holy Name Grammar School and Manhattan Preparatory School in N.Y.C., graduating from Manhattan College in 1932.

He was ordained at St. Joseph's Seminary, Dunwoody, N.Y. on May 22, 1937.

On January 26, 1946, he came to St. Peter's parish as an assistant to the pastor. Among his many duties at that time, was teaching Social Studies to St. Peter's freshmen boys. The freshmen attended school at the Richmond Terrace address then.

He completed a two year course in Pastoral Life on June 1, 1966. Father Reilly became pastor in 1968, replacing Father Guilfoyle. He has been serving the parish with love and faithfulness ever since then, for which we gratefully thank him.

Rev. JOSEPH M. COLLINS
Administrator of St. Peter's Parish

Father Collins is a native of Staten Island and a graduate of St. Peter's High School for boys. He was ordained on April 17, 1948.

He has served his priestly life at St. Michael's Church in Mariners Harbor, Blessed Sacrament in Westerleigh and Our Lady Star of the Sea in Heugenot, coming to St. Peter's parish in January 1971.

We are grateful to you, Father Collins, for your ever renewed interest in our welfare.

RELIGION DEPARTMENT

"One of the hallmarks of our school seems to be RESPECT of the entire school community for one another. May it continue to grow!"

Brother Pat

Since St. Peter's is a Catholic High School, it has the obligation to help its students mature in their Catholic faith. Though the responsibility to establish an atmosphere for growth in faith is the responsibility of the entire school community: administration, faculty, parents and students, the Religion Department has a distinctive role to play. The department sees this role as that of offering religion courses which provide an ongoing understanding life and by integrating this scholarly, challenging, academic program with the other branches of learning offered at St. Peter's. With the continued support of administration, faculty, parents and students, our Religion department will strive constantly to achieve its ambitious goal of becoming one of the best in the whole country.

GUIDANCE

The Guidance and Counseling Center provides a wide range of services for the students in consultation with parents, faculty and administration.

Staffed by one full time counselor, Brother Adrian Lyons, and two part-time counselors, James Flynn and William Rybicki, the center provides academic, college and group guidance as well as vocational and personal counseling throughout the four years of high school.

The field of guidance is chiefly concerned with giving students needed information, instruction or advice.

In academic guidance a student is helped in choosing a suitable program of study so that he can perform without failure.

College guidance with Brother Adrian as counselor is a placement service for seniors. While in group guidance, at an informal weekly meeting, juniors, sophomores and freshmen are given the opportunity to discuss openly wide variances in human behavior.

Vocational and personal counseling are also available in conjunction with interviews and testing.

In addition the center has contact with mental health professionals and counseling agencies on Staten Island.

INTEGRATED PROGRAM

WITH BROTHER STANISLAUS KRYSIAK F.S.C.

Before we either compliment or condemn our present school system, it is first necessary to examine the values of our society. Generally, the main goal of school is to prepare and develop the student for future life. So, the student is taught whatever is regarded as important for success: English, History, and Math to succeed in college, and Business Law, Economics, and Accounting for the business world.

The Integrated Course, with Bro. Stanislaus as chairman, is seeking not to change, but to expand the contemporary definition of success. The concept of *working for a living* is good, but if, in doing so, one fails to appreciate life, then we need to re-examine 'success'. Man was not created to make as much money as he could; he was created so that life might be appreciated and enjoyed.

In effect, the class stopped the world and got off. We experimented in many fields of life and saw how man functioned in each area. When we started revolving again, we were at a speed all our own. Many said that that speed was too slow and lagged behind everyone else's; and the class laughed and whizzed by.

The English program in the school has been steadily innovative. Three years ago, we offered to interested Seniors the Integrated program which sought to answer the question 'What is Man?' by having them do as well as read. This was followed by the Humanities program, an interdisciplinary undertaking uniting the History and English Departments. This was followed in turn by a union of the Religion and English departments in another innovative course called 'Man's Search for Meaning'. The Department branched out by offering semester courses on such diverse topics as: Major American Writers; Media and Communications; Poetry of Folk and Rock Music; and The Study of Film. This year we hope to introduce 'Man and the Arts' and 'Publications and Their Impact on History'.

While all of these courses are for specialized tastes, the Department has not abandoned traditional English. Students in all phases are given the opportunity to exercise vocabulary competence, grammatical expertise and literary comprehension.

The program of studies offered by the language department is developed as a three year sequence, with the addition of a fourth level Spanish intended for students especially gifted and/or interested in the language.

The method used is "The Silent Way" which stresses structure for the purpose of communication rather than grammar for the purpose of analyzation. The slogan adopted by the method is "Much Language, Little Vocabulary". Vocabulary is a luxury when trying to master a tongue. Minimal but functional vocabulary is learned and used to achieve facility in the target language.

Brother Francis Walker is the Business Manager of all school shows: Faculty Show, Christmas and Spring Concerts and Broadway Musical Shows. He is also Athletic Director and Teacher of Mathematics.

Brother Francis Walker has taken upon himself the responsibility for publicizing and financing school productions. His efforts in organizing funding activities, securing workers, determining publicity, and balancing the budget bring about the financial and social success of these enterprises.

Frank Krusjewski assists him in this task.

Brother Francis expresses the "desire that all our St. Peter's parents, alumni and students support the activities of our school".

The aim of the History Department is to make our students aware of what is happening around them in the world today.

This is accomplished in various ways; by an in-depth study of man's development through the ages in courses offered such as World Studies and World History; by courses offered in more modern Social Sciences such as 20th Century American History, Current Scene and American Government.

It is our hope that upon completion of the courses offered by our department the student will become a more integral and involved part of the world around him.

Respectfully submitted
Richard Standing.

SCIENCE

Objectives of the Science Department

Contemporary Society exists in a highly specialized and technical form. The individual must obtain an awareness of the problems facing society in general as well as find his own place within the framework. Thus the Science Department's aims are two-fold:

1. to educate the students towards technical and/or scientific literacy
2. to inform the student as to the present technical state of society and its forcasted demands.

DEPARTMENT

The Mathematics Department at St. Peter's attempts to allow each student to go as far in High School Mathematics as he wants to and as far as his abilities permit.

Standard courses are offered in Algebra, Geometry, and Trigonometry. Students desiring to continue Mathematics in College can prepare themselves with Elementary Analysis. A few students take Advanced Placement Mathematics. Computer Programming has been a popular course with Seniors for the past five years.

MATHEMATICS

Our Mathematics Department has not been unaffected by all the "New Math" controversy of recent years. We neither ignore these issues nor make of them a sacred cow. Rather we attempt to glean what is valuable from the new projects, and to use whatever new terminology can lead to better understanding.

We realize most of our students will not become mathematicians, scientists or engineers, but our hope and our aim is to help all our students become mathematically literate members of their technological society.

BUSINESS DEPARTMENT

The purpose of the Business Department is to offer to the student practical business courses, of a non-clerical nature, on an elective basis. The courses in law, accounting, stock market, taxation and economics are designed to prepare the student for the business world regardless of his vocation. It is felt by the members of the department that every student should be exposed to basic business principles as part of a complete education.

The effectiveness of any student government is measured by the support given it by the student body.

Considering the apathy of our student body, Tim Ferrie, President; Jerry Sammartino, Vice-President; Ron Lino, Treasurer; and Fred Colon, Secretary; did the very best that they could.

Each officer had his own duties in the various activities handled by the Council. Tim Ferrie worked with Mr. Demasi to revive the National Honor Society for the Juniors and Seniors. Fred Colon, with the help of Gloria Colon of St. Peter's Girls H.S., worked out a successful Roller Skating Trip. Ron Lino planned a Mission Drive which was the best that St. Peter's has had in recent years. The October total cleared $700.00, an excellent response from a four week collection period. Jerry Sammartino who is also chairman of the Senior Prom Committee, helped where needed in these other activities.

The Council ran a Knick raffle. We brought two, season seats for all the Knick games, and raffled them off at four games a try, making the win eight tickets. Halfway through the season, student support collapsed and the remaining tickets were sold to the students. I doubt if the administration will be willing to give this idea another try.

The Council was instrumental in making the gym available to students one night a week to play basketball.

We also took part in Island-wide Catholic High School, Student Council meetings and benefited from these inter-relationships.

The Council did whatever it possibly could do to be an effective student governing body. If you think that it wasn't much, then this is a reflection on you. We could not act without the backing of administration, faculty and students. It takes all three.

Timothy Ferrie.

DEDICATION

The Senior Class in their own behalf and in behalf of the Student Body and Faculty dedicates this 1974 Edition of the **Aquilan** to Victor T. Carasaniti, Chairman of the Business Department.

Every school has at least one team, and that team is the faculty. It doesn't win championships, or tournaments. Their goal is to give the students the best chances of obtaining a good education as possible. Here at St. Peter's, our "TEAM" is truly outstanding. To dedicate the **Aquilan** to one individual is hard, for there are many great teachers who deserve it. But the decision had to be made — and Mr. Carasaniti was picked by the Senior class.

Mr. Carasaniti graduated from St. Peter's in 1955. He went to St. Peter's College and graduated in the class of '59. He furthered his education by going to Fordham Law School, graduating from there in the class of '62. Our Chairman of the Business Department did not stop there; he continued on to Brooklyn Law School, where he got his Masters Degree in Law in 1965. In Sept. of '65, Mr. Carasaniti came back to St. Peter's, to teach. In his nine years at St. Peter's he has taught History, Business Mathematics, General Business, Economics, Taxation, and Business Law. He is presently Chairman of the Business Department, teacher of Business Law. Under his chairmanship, The Business Department offers practical courses related to business rather than clerical courses. He feels that modular scheduling has been a help in achieving these more practical courses now. "There is tremendous spirit among the students and faculty", says Mr. Carasaniti and he proves this every day in Business Law.

The **Aquilan** was moderated by Mr. Carasaniti from the class of '66 to the class of '73. During those years he has developed some superb yearbooks that will never be forgotten.

Thank you Mr. Carasaniti for the memories — Class of '74.

To Mr. Carasaniti:

For the largeness of your heart, the acuity of your vision, the enthusiasm with which you approach your days and your fantastic personal charm, Mr. Ruppert and all the rest of us Irish wish you the very best and want you to know that we consider you a darn nice guy.

"Regions Caesar never knew
Thy posterity shall sway,
Where the eagles never flew
None invincible as they."

Joe Zagami and Dennis Cooney shake hands with Mr. Carasaniti

"The Coach"

One of many young men attracted to the religious life after a stint in the service, young Jim McDonnell — affectionately called "Dad" by his younger confreres — chose to join the Brothers in the off-season and received the habit in November of '48. After his tours of duty at Barrytown and Washington (CUA '53), Kevin was assigned to what was to be his home away from home for the next twenty years. He arrived at St. Peter's Junior High on the Terrace — just in time to help in its dissolution. By '58 he was safely ensconced in the High School where his benign good humor and track expertise had helped to mold his new cognomen —

Never prematurely gray, Coach Kevin, dressed in a baseball cap, "Linkie" boots, old pants and jacket, could be seen daily out on the grass, out on the board track and, eventually, out on the permanent track. That he was frequently out on his feet is a tribute to the kind of devotion he gave to his chosen sport. Many were the great and near-great names to come out of that era. But this kind of devotion had to be shared, and so, in succession, Kev took his devotion and expertise to a variety of schools — Lincoln Hall, where he introduced cross-country to delinquents; St. Bernard's, where he taught Village kids it was not unmanly to run; LaSalle Academy, where he showed his essential spirit of fair play, by teaching our archrivals across the Bay to run;

Then the Superiors discerned what we had seen all along — Kevin's deep interest in things theological. So they enrolled him in the Manhattan College School of Theology, where he performed so brilliantly that they were later to send him off to New Mexico and the Second Novitiate. First, though, with his newly acquired knowledge, he returned to his first love — St. Peters. Here he immersed himself in the "Insight" series, the Poster Program, "Living With Christ" — and track. Yes, "Coach" was back and the fortunes of the thin-clads were on the upswing. With the exception of a years hiatus for Sangre De Cristo and a short stint as candidate counselor in Detroit, Kev is still with his first love.

What can we say of a man who has given so unstintingly of his time, his encouragement, himself, in trying to mold young lads through instruction, inspiration and example into young men that are in turn inspiration and example to those around them? Call him "Dad", call him "Coach", but, first of all, call him "Brother", for that is what he truly is, not only to his siblings and confreres, but also to the faculty and the many young men who have come under this aegis over the years. The world has been a little nicer for us all because the McDonnell boy named James made a decision a silver time ago.

Thanks, Kev, from all your friends.

To Brother Kevin,

The Eagle's Journey

From this grey crag in ether islanded,
I once at dawn, before the dark was done,
Full east my solitary pinions spread,
Seeking the sunken sources of the sun.
Chill o'er me hung the icy heavens, all black
Behind their fretted webs of fluttering gold.
Beneath me growl'd the grey unbottomed sea,
Inwardly shuddering. O'er her monstrous back
With restless weary shrugs in rapid fold
Her many-wrinkled mantle shifted she;
And scraped her craggy bays, and fiercely flung
Their stones about, and scraped them back again;
Gnawing and licking with mad tooth and tongue
The granite guardians of her drear domain.
Faint in transparent twilight where I gazed,
Hover'd a far-off flakelet of firm land.
Barely chin-high above the waters raised,
Peered the pale forehead of that spectral strand.
Thither I winged my penetrative flight:
The phantom coast, uncoiling many a twist
Of ghostly cable, as a diver might,
Swam slowly out to meet me, moist with spray.
But, ere I reach'd it, like a witch, the night
Had melted, first into a mist
O melancholy amethyst,
Then utterly away.
And all around me was the large clear light
And crystal calm of the capacious day.

Brother Robert Carnaghi, F.S.C.

Miller versus St. Joe's! The climactic game of the '40's! Many still remember the tow-headed kid who played for St. Joe's that year. Though his brother was the star of the team, young Bob Carnaghi played well enough to be with the All City champs in that great year. Later named to the All City All Stars, he said to himself: "Is that all there is?", and decided it was not enough. So, in 1948, he threw in his lot with his former teachers; he joined the Brothers.

Having completed his college work at the Pontifical Catholic University of America, Bob was assigned to Good Shepherd Grammar School in upper Manhattan. Here he continued his basketball playing and added coaching to an already full teaching schedule, a practice he would continue to the present day. In '56, he moved to a welfare school in Albany, and two years later volunteered for the Missions. In Kenya, he continued his athletic and tutorial regimen. When he thought he understood grammar school youths, orphans and Africans, Bob decided to try for the big-time — high school.

Moving to C.B.A., Lincroft, Bob showed his versatility by mastering the admittedly difficult task of modular teaching, an innovation that promised to be the wave of the educational future. After eight years, it was time to move closer to the scene of his most brilliant endeavors. With a sister in the chancery education department in Detroit, Bob felt he had to surpass at least one member of the family. After a year at St. Joseph's, West New York, therefore, he moved to St. Peter's and administration.

The sidelines of basketball, acting and dancing did not cease with his acquiring the reins of governing; and each year would see him in the Faculty play, the annual Musicale and any Faculty basketball game. He was meanwhile engaged in the school switchover from block to modular scheduling. Today, St. Peter's is under Bob's direction, and its modular setup is envied by less enlightened schools.

The tow-headed youngster from Detroit has finally moved into the limelight on his own. Even young, Robert Carnaghi has become Brother Robert, the Principal; but the youngster still breaks through in the acting, dancing and ballplaying of today. And what of tomorrow? We can only hope that the youngster in Bob will continue to dominate the person of the mature man we know and respect. Ad multos annos, Rob! from all your friends.

Oliver flees for his life.

"Oliver" is the story about a boy's search for love, ending in a 19th Century concept of happiness, the discovery of family and heritage. Although today these concepts have come to be devalued, nevertheless, a man does not live by now alone.

Inherited traits and circumstance work together for some particular kind of end results. What happens in "Oliver" is a 'wild' mixture of human valor, courage and kindness with human weakness, hatred and fear. The strangeness of these bedfellows is caught in the music and lyrics of such songs as "I'm Reviewing the Situation", "As Long as He Needs Me," "I shall Scream", "It's a Fine Life." The music is light hearted and happy in the midst of poverty, squalor and need, and yet it complements and enhances the credibility of the situations.

The students' interpretation of their roles had sensitivity and style.

The show was produced, directed and designed by Carl William Lesch.

AUDIENCE HAILS "ENTER LAUGHING"

Another year has passed and another great faculty production has taken place in Spellman Center. It was a comedy play set in New York City in the mid 1930's.

A poor Jewish boy named David Kolowitz, played by Mr. Danny O'Donnell is struggling to become an actor. Mr. O'Donnell was the "Mr. Tony Accardo of this play, Mr. Johnny Fodera, the "Borgoshmord kid", was his boss in a machinery repair shop, and Mr. Cafaro his close friend delivered all his advice between mouthsful of apple.

Brother Bob, Joy Stawitz, Bro. Patrick, Ralph Catuogno, Rita Kelly, Marguerite Accardo, Frankie Cafaro, Joan Fabozzi, and William Rybicki, Frances Costello, Brother Stan all turned in excellent performances . . . The audience was delighted at the antics of our unusally dignified faculty. If they were sad when they arrived, they exited laughing . . .

CHRISTMAS CONCERT 1973

Good Wishes for Christmas '73
The Season of Love

Christmas Concert 1973 set the mood for a beautiful Christmas season in the hearts of both audience and performers at St. Peter's. Fire damage to the rest of the school did not dampen anyone's enthusiasm during the affair that went off beautifully and in many cases renewed friendships of many years standing.

For the beautifully mannered young ladies and gentlemen whose fine singing performances were the result of high demands placed upon them by Mr. Lesch's musical sensibility as well as his love for theatre; for the piano accompaniments of David Alexon and Peter Light; for the staging and execution of special numbers; for the Misses Melody; and for the grand finale, thank all of you from all of us.

I'm sorry about team pictures. It takes a whole lot of cooperation to have everything.

JUNIOR VARSITY BASKETBALL

To describe the success of Mr. Ruppert's Junior Varsity Basketball team, would be easy: Team Work, Pride, and A Will to Win. There are no selfish super stars on his team. When asked who his starting five were, Mr. Ruppert's reply was, "I have no starting five, I have a starting eight." The so-called "starting eight" are Bob Zagajeski, Bruce Morrison, Bob Russo, John Muccino, Terry Hunter, Peter Pacifico (Co-Capt.), Steve Robitzski (Co-Capt.), and John Fitzgerald. But these eight fellows didn't make, "The Team". The St. Peter's J.V. was made from the dedication that guys like Bob Lino, John McAloon, Dennis McNamara, and Karl Nyberg showed to their coach and fellow teammates. They knew they would only see limited playing time on a given night, yet they never missed a practice.

Steve Robitzski was voted the M.V.P. in the Billy O'Hara Christmas tournament, which was hosted by St. Peter's. Mr. Ruppert said every member of the team contributed in his own way, and that is what High School Athletics is all about. Our Junior Varsity won all but one of its games on the schedule, including the Billy O'Hara tournament title. They lost to Farrell on Jan. 18, 1974; but they showed a lot of class, by walking away with their cool and won the last seven games, including the Staten Island J.V. Basketball title in Farrell's gym; against the same team that had beaten them a month earlier at the same place. Yes! St. Peter's is the Staten Island High School league J.V. Champions, successfully defeating Farrell with their Pride, dedication, teamwork, and their will to win. And last but not least the Senior Class has a message for Mr. Ruppert. "Congratulations, Coach Ruppert. You have done a hell of a job in our four years here. Good Luck! and Thanks for the Pride given to all at St. Peter's by your victories.

The Tottenville match was under protest this year for having placed a scrub in their # 1 spot instead of moving their second man up to the first spot. This was both unethical and dishonest and for this reason the whole match with Tottenville (and maybe their entire season) is being protested.

Steve Schlamp, Sophomore, # 5.

The season was the best one in a very long time in St. Peter's history. Our record was 9 wins, 2 losses. Hector Munoz was great this season going undefeated and having only two close matches. Neil Keating had a pretty good season, losing only four times, three to the same person. Jack Whalen also came through losing only three times.

Keating and Munoz teamed up to win in the doubles match in the semi-finals of the S.I. Interscholastic Championships. Hector Munoz also won the singles Championship. And to cap the day, Dan Corley beat out the opposition in the Freshman category.

St. Peter's Public Address Staff has been operating for the past six years as a student run organization. Members are instructed in the proper way in which to operate, maintain and control a modern sound system. The types and use of microphones and the operation of turntables, tape recorders and tape decks are a part of its many experiences and duties.

This year the Staff under the leadership of Edward Zdanowicz follows rules and regulations set up last year regarding use of facilities of "Spellman Center". No one other than members of the P. A. Staff may operate this equipment. We are hopeful and confident of our continued ability to serve the St. Peter's community.

Staff members this year are:

Edward Zdanowicz	Chairman '75
Greg Tupe	Assistant Chairman '75
Charlie Maloney	Sr. Technician '75
Robert Kilar	Sr. Technician '75
Thomas Fisher	Sr. Technician '76
Neil Kenny	Sr. Technician '76
Timothy Barry	Sr. Technician '76
Gerry Sinnott	Jr. Technician '77

Printing Staff

Under the direction of Frank Krusjewski, this small group of boys printed up all of the memoranda, newspapers, bulk business correspondence and selected classroom materials used in the school this year. It is a credit to their skill, good dispositions and willingness to work that this information was processed through the school so readily. We, your beneficiaries, commend you.

The Bookstore

The bookstore staff at St. Peter's is an organization unique unto itself. The many hours that go into ordering, distributing and collecting books, are unseen by the St. Peter's student. These hours are part of many more that the staff willingly give in order to serve their school in another way. The "bookstore 8" under the moderation of Mr. Fodera can always be found in the "subterranean" halls of Clinton Avenue.

St. Peter's Boys' H. S. Chapter of the National Honor Society

Junior and Senior students may become eligible for membership in the National Honor Society by fulfilling requirements in each of four categories: —

character	leadership
scholarship	service

A student must maintain an average of 85% throughout his H.S. career. He must be recommended by his pastor and/or teacher as to character, approved by a faculty committee consisting of the dean, guidance and homeroom teacher and approved by the principal. Other categories are measured by means of a point system.

These boys have lived up to the finest tradition of school achievement at St. Peter's High School.

The Most Happy Fella

Frank Loesser

The spring musical this year was beautifully sung and acted by Tom Zerega and Colleen Davis. We were all looking forward to opening night for some things were being tried for the first time. For instance; the orchestra was situated on stage out of sight behind a scrim. Would this improve voice projection?

Casting for the leads began last year since **The Most Happy Fella** has been considered practically an operetta and the cast needed for its production would be almost double that of the usual Broadway musical. Mr. Lesch found that he had the voices that he needed to do the show.

Costs were kept minimal and money spent where it counted most. Costumes were made, bought, borrowed or dug out of attics and closets but not rented. Stage draperies were sewed, patched and painted over, grapes borrowed, boxes and crates gathered, a fake six foot wedding cake found and made smaller and reusable flats constructed. The stage was extended and the show put into production. A new piece of mechanical equipment was particularly useful; with it the top of the auditorium could be reached with no fear.

Bob Drury. We did not see this much enthusiasm in constructing these sets.

Chris Swensen. Always willing to lend a hand when Mr. Lesch needed him.

Mr. Lesch finally stopped to have his portrait taken.

The wheelchair was the most irresistible distraction in the gym during rehearsal while the piano came in a close second. Mr. Lesch saw to it that a minimum of precious time and effort was expended on these two items while there were still many details to attend to.

Meanwhile rehearsals continued day and night with both principals and full cast. The show needed to come alive, take wings. Exaggeration, emphasis, beauty of tone, correctness of dialect, timing; all needed perfecting. The students worked. At times they did not appreciate the need but they worked anyway. And opening night and all the following week proved the value of all their efforts.

People called in to speak of their pleasure; how the songs and performers were staying with them through the days; of this incident or that highlight. The audience loved them. Even now three weeks later, singers are still being stopped on the street and complimented on their performances. It was truly unforgettable.

The Varsity Baseball Team plays in two leagues during the spring semester. The season begins in early April. In the Staten Island High School League, there are nine teams which play the Brooklyn Division of the Catholic High School Athletic Association's seven teams, two times each. St. Peter's came in fifth in the thirty game competition.

We also played the Catholic High School Athletic Association's seven teams, twice each. This is the second year in which we qualified for the playoffs. We were eliminated in the first round.

ST. PETER'S HIGH SCHOOL GOLF TEAM BEAUTIFUL!

St. Peter's golf team, coached by Brother Patrick Duffy has had another very good season this year. We were beat out by Farrell, true, but they swept every game and allowed no team to score except Peter's. Mark Sweeney and Dan Brown were the only two who obtained points from Farrell.

The golf season begins each year with a pre-season Coach's Tournament which sets the standards for the season. We belong to the S.I.H.S.L. which consists of eleven teams who play each other once. After the third match, positions are set and a player cannot be moved except in case of injury or illness. A player can never be moved down.

After the regular season, the four top teams play in the Coach's Tournament. This year the four top were Farrell (1), St. Peter's (2), Tottenville (3) and Wagner (4). St. Peter's, pushed to second place by Farrell was their only competition. Five perfect golf games were played on St. Peter's home course at Silver Lakes and five games away. Next year all games will be played away.

At the completion of the playoffs, independent tournaments were arranged with the C.Y.O. and the Santulli teams. These matches ended a beautiful season.

The Eagle

He clasps the fragment crag with crooked
hands;
Close to the sun in lonely lands,
Ring'd with the azure world, he stands.

The wrinkled sea beneath him crawls;
He watches from his mountain walls,
And like a thunderbolt he falls.

Alfred Lord Tennyson (1851)

EAGLES

. . . The last I saw
was on the wing; stooping he struck with awe
Man, bird and beast; then with a consort paired,
from a bold headland, their loved eerie's guard,
Flew high above Atlantic waves, to draw
Light from the fountain of the setting sun.
Such was this prisoner once;
